High School Principal

**ABLE High School Parents and Families:**

Welcome to what promises to be the most unique school year any of us have seen in our lifetime. We at ABLE plan to do everything in our power to continue to provide our students and families with support, guidance, and resources throughout the year.

Through our high school distance learning model, we intend to provide a realistic amount of instructional time for students and teachers that will be effective without overloading any individual or family. We believe that it is more crucial now than ever to create safe spaces for our students to learn and for our teachers to teach so that we may all show up in the regulated state necessary for effective learning.

We appreciate all the feedback we have received from families - through the parent survey regarding our model in the spring and from parent feedback now. This feedback has shaped our distance learning mode, one that allows for both structure and flexibility in its mix of synchronous and asynchronous learning. Of course, never hesitate to contact me with your thoughts and input going forward.

Our counselors have a dynamic plan with a focused goal to reach all students and provide resources for academics, college/career readiness, and social-emotional well-being. They will visit classrooms during the first week to introduce themselves as well as provide students with a needs assessment survey which will help them better serve each individual throughout the school year and beyond.

We will provide students with additional support from a designated advisor who will monitor their academic achievement and attendance and communicate regularly with parents. You can find more information about advisory on the one-pager posted on the website.

We continue to use the Schoology platform for course access, assignments, and grading. To ensure we can provide you with the proper parent access and training, we encourage you to update any contact information that may have changed recently by calling our office at (209) 478-1600 and speaking to a member of our amazing office staff. Being that we are entering a very virtual world, we highly encourage you to provide us with an updated and working email address. Even if you are not sure that anything has changed, we invite you to check in!

On a personal level, I chose ABLE eight years ago because I wanted to move home to be closer to my family. I continue to choose ABLE because ABLE and you are my chosen family. Know that our students and our families are my top priority. No matter what. I am so very proud to be your principal. We got this!

With Intention,

HK Evans-Peterson aka Coach P
